## Material Typical Values

Material Descriptions: Polyethylene Film– Natural Coloration

Film Typical Values:

Film Trait	Typical Values	Units
Yield (Basis Weight)	3.5	Mil
Coverage	8570	Sq.in./Lb
Emboss Pattern	Matte	--
Emboss Thickness	4.5	Mil
Web Width	As required	Inches
Roll Length	As required	Feet
Roll Weight	As required	Pounds

Physical Properties Typical Values:

Physical Property	Test Direction	Typical Values	Units
Tensile Elongation	Machine Direction	350	(%)
Tensile Elongation	Transverse Direction	525	(%)
Tensile Strength	Machine Direction	2,500	(psi)
Tensile Strength	Transverse Direction	2,000	(psi)

These are typical values expected for the aforementioned product only. These typical values are not to be considered a specification for these properties. Typical values cannot be considered specific rejection criteria. If these properties, or others, are a requisite for the film, a true specification can be developed and provided after sufficient production experience.
